

Electronic prescriptions

Rolling out now

You can choose an electronic prescription as an alternative to paper prescriptions.

Check that your doctor and pharmacy are ready

Connecting you to better healthcare

Getting an electronic prescription

There are **2 WAYS**

Direct to you

Your doctor can send you an SMS or email during your consultation.

Direct to your script list

Ask your pharmacist to create your script list. Your prescriptions can then be added to it at any time.

Getting your medicines

There are **2 WAYS**

Collecting it

When you or your carer go into a pharmacy, show them the email or SMS so it can be scanned

or show your ID so they can access your list.

Home delivery

If your pharmacy offers home delivery forward the SMS or email to them so they can scan it

or call them to validate your ID so they can access your list.

Remember: you can forward the sms or email to a family member or carer so they can get your medicine.
